I understand that Early Learning Village (ELV) will exercise all reasonable care in supervising the children. However, the staff and Village Church of Gurnee cannot be held responsible for accidents that may occur. I hereby give my permission, should my child need emergency medical care, for services to be rendered to my child by a licensed physician and/or hospital. I also give permission for my child to be transported by car or emergency vehicle to location of treatment.

Please be aware that ELV and Village Church of Gurnee do not provide health or medical insurance for students; instead, it is expected that parents will provide health or medical insurance for their own children and will be financially responsible for any medical bills incurred as a result of medical treatment, including emergency medical treatment and/or transportation to a medical facility, in connection with their child's participation in ELV.
